

Rosa — see Cropin

*Helianthus cucumerifolius*, Gard. Chron. 2. 6. 201  
1876.

Taylorville, Indian Valley,  
Shumas Co., Cal.

June 24th, 1876.

Prof. Watson —

Dear Sir,

I mail you to-day a fruiting specimen — the most mature I have been able to find — of its kind.

I thank you most sincerely for its honor — if distinct — you will confer upon me. Allow me, please, to repeat the request expressed in regard to its *Sentonia* var., — that it bear my maiden name in honor of my dear dead father.

I shall search more closely for mature specimens but scarcely hope to find them this season is so far advanced. Respectfully and sincerely yours,  
Mary E. Peckham-Ames.
